

# Print·Limit Pro

## Advanced Print Management

- Enterprise level print control - scalable up to 20,000+ users
- Limit, chargeback or log print jobs on a per-user basis
- Flexible implementation - Silent monitoring, quota control or user pay
- Assign costs to group accounts or cost centers
- Chargeback printing to departments or issue fee-based cards
- Advanced reporting in PDF, HTML and Excel formats
- Support for Windows, Mac, Linux and Unix
- 100% web based administration and advanced reporting

## Manage

Supervise network print activity from any browser window. Access dozens of standard pre-built reports covering users, printers, and shared accounts. Modify user's account balance and view full transaction history.

## Regulate

Monitor, limit, chargeback, or set print quotas on printer activity for any user on the network. Set limitations or restrictions for expensive print jobs or color printers. Automatically deny duplicate print jobs. Supports print release stations.

## Recover

Assign print expenses to individuals, groups or cost centers. Recoup paper and toner costs from departments and end-users. Issue fee-based print cards to users to recover the cost of printing. User-friendly tools help manage print accounts.

- 1 Manage Printing** Eliminate wasteful printing activities by automatically denying duplicate print jobs, restricting print jobs by document name or type, limiting access to color printers or setting maximum page counts. Administrators can configure the cost of print jobs based on paper size, color mode or number of pages.
- 2 Extensive Reporting Capabilities** Access dozens of pre-built reports from any web browser showing detailed user statistics, printer activity and group budgets. Custom build reports and use real-time charts and graphs to monitor printing activity and resources.
- 3 Group Charging** Set up users to charge their printing to a specified group budget. Protect user accounts with a PIN number or network security groups. Allow users to charge to a group account or an individual account. Adjust balances or view statistics for any user or group instantly from the web.
- 4 User Accounts** Assist end-users with useful tools to manage their accounts. Enable a pop-up window to show account balances before printing and give users access to a webpage showing their account status, print and transaction history. Allow users to transfer funds to others. Supports standard and web-based print release stations

**System Requirements Server:** Windows 2000, 2003 or XP. Linux (Red Hat and most current versions), Novell SUSE, Debian **Client:** Microsoft Windows 95 / 98 / ME / NT 4.0 / 2000 / XP / 2003, Mac OS X, Linux with Java 5
