

Press release

Danware/Netop Acquires GenevaLogic, Becomes Worldwide Leader of Classroom Management Software Solutions

Netop, formerly known as Danware A/S, the holding company of Netop companies in the United States., the United Kingdom, China and Germany, today announced the acquisition of GenevaLogic, an international leader in active teaching systems.

Copenhagen, Denmark; Portland, Oregon; and Langenthal, Switzerland – June 11, 2008 – Today Danish software company Netop announced the acquisition of Switzerland-based software company GenevaLogic. With the acquisition, Netop has consolidated its position as the world's leading provider of classroom management software.

“Combining the classroom management software products from GenevaLogic with the products of Netop, we are extending our commitment as the worldwide leader in innovative software to support teaching and learning. Netop will be the market leader providing educators and students with the benefits of more than 20 years of international, educational software expertise,” said CEO Kurt Bager, Netop.

GenevaLogic, founded in 1996, is headquartered in Switzerland, and the United States. The privately held company is an international leader in active teaching systems. Its Vision classroom management software is used in more than 50,000 classrooms worldwide. The Vision software empowers teachers and trainers to guide and supervise student computer activity from the instructor's computer screen.

Competitors combine forces

The merger of Netop and GenevaLogic will make more development resources available for enhancing the complete portfolio of education and classroom management software offerings. The development of educational software is growing fast and combining efforts, Netop will be leading the race of bringing the most innovative and proven education products to the market.

“This new partnership is the perfect fit for GenevaLogic. By combining our efforts we can build even greater momentum for delivering best-of-breed education software solutions to our customers. Together with Netop's other desktop management and security products, the total portfolio of solutions and products will be unlike that of any other education software vendor in the market space,” said Peter Schuepbach, chairman of the board, GenevaLogic.

“This acquisition complements our overall strategy to boost our sales worldwide. With the local presence of GenevaLogic in the United States, the United Kingdom and Germany we gain further access to the numerous schools, universities, teaching institutions and other educational

ACTIVE TEACHING SYSTEMS

NetOp. Moving expertise - not people

organizations. This will result in a company that is unique in the marketplace and builds even greater momentum for delivering top tier education and classroom management software solutions to educational institutions,” said CEO Kurt Bager, Netop.
